

3D INTERACTIVE COLLECTIBLE FLYER!

This Flyer Is A Collaboration Between Several Artists & DJs Thanks To All Those Who Contributed
Please Visit www.StandUpArt.com for more 3D Flyer Collaborations & Music

HOW TO ASSEMBLE

1) After cutting out your NaniBird, SCORE all lines before bending. To score lines, use an old dry pen, or any pointed tool will work. Pre-bend everything before starting to assemble.

2) Make your TOY by starting at the head, A & B will be the beak & Speak! Bubble + Song! Bubble... Insert easily into the beak by sliding it into place once your NaniBird is complete.

3) Easily construct NaniBird by following the Legend to see which way to fold each dotted line, placing tabs into slots cut previously along WHITE LINES. Do the same for the Song! Bubble and Insert Codes.
